

REMARKS

Amendments to the Claims

Upon entry of the foregoing amendment, claims 1-55 are pending in the application. Of the pending claims, claims 1, 18, 41 and 43 are independent.

Claim 1 has been amended to recite, "said second and said third positions being at least about 12 millimeters apart." Additionally, claim 1 has been amended to recite, "each of said movements is at a duration between 5 and 25 seconds." Movements of 12 millimeters are supported in the present application at page 2, lines 24-25; page 8, lines 11 –14; page 11, lines 5-8 and page 14 line 24 through page 15, line 13. That the movement be long, i.e. preferable 5 to 25 seconds, is supported at page 10, lines 10-11, and in original claims 11, 24 and 35 on pages 20, 23 and 24.

Claims 18 and 41 have been amended to correct inadvertent errors resulting in improper antecedent bases. These clarifications are merely to provide proper antecedent bases and are not related to patentability of the claimed inventions.

Applicants respectfully submit that independent claims 1, 18, 41 and 43 are allowable over the prior art of record, including the Benson patent. For similar reasons, and for the additional reasons set forth above, Applicants urge that the dependent claims are also allowable.

Prompt and favorable consideration of this Amendment is respectfully requested.

Respectfully submitted,
